Re: Marly Driskell

Dear New Parent,

It is with greatest pleasure that I recommend Marly as your night nanny. We first had her as our night nanny after the birth of our premature twin girls. Marly was an essential member of our family and provided a level of care that I could only hope to achieve, if I were able to stay awake 24 hours a day. Despite the frequent feedings and digestive difficulties one of our daughters experienced, I knew I could rest with ease when Marly was on the job.

Therefore, it is no surprise that upon learning I was once again pregnant, I again arranged for Marly's help. Though it was only one child this time, her help at night provided me time to rest, enhancing my recovery from a difficult pregnancy and c-section. She again had useful advice, and even showed us some of the new "infant swaddles" which helped our newborn sleep in comfort, easily achieving a feeding and sleeping schedule we could handle.

With her integrity, knowledge, and love of children, Marly is someone I would highly recommend for the care of anyone's children.

With highest regards,

Arlene S-R., MD
