

June 6, 1996

Dear Sir or Madam,

Please consider this letter of reference for Marly Higgins.

We have known Marly since October of 1994 when she responded to an ad we placed for childcare for our 3 month old daughter. Marly presented to us for interview prepared as well as degreed career professionals, being prompt, neat in appearance, and very pleasant in communicating. She offered an impressive resume, complete with various certifications in childcare related areas, letters of reference, and police background search. My husband and I were quite interested in this motivated young woman who approached a "babysitting" job with such professionalism.

As we were soon to discover, Miss Higgins upheld our hopes for the best care that we could provide for our child, and in fact, we would consult her for questions we had, as we were first time parents. Her gentle and natural manner with our child gave us a great sense of peace of mind, and we grew to have a deep caring and respect for Marly. She has proven dependable, conscientious, and trustworthy, as well as our child's absolute favorite nanny.

I am a Registered Nurse working in obstetrics, and I interact with mothers and babies every day. Marly Higgins is an excellent candidate for any position involving infants or children. I could not have been more blessed with good care for my child than that which Miss Higgins continues to provide.

Sincerely

Hayley M.
