To Whom it May Concern:

Marly Driskell worked as night nanny to our twin newborn boys over a period of three months in early 2011. We have nothing but positive things to say about our experiences with her. From our initial interview with her, it was clear that she is a seasoned professional comfortable with a variety of families, children and environments.

During the time that she worked for us, she helped get our boys onto a regular eating and feeding schedule which led to them quickly being able to sleep the whole night through. Especially with twins, her assistance in this regard was particularly appreciated!

While working in our home, Marly showed herself to be intelligent, personable, patient and professional. We had no concerns about trusting her with our children and would certainly use her again should the opportunity arise.

Please feel free to contact us with any questions.
